

Testimonials

"I had a breast augmentation with Dr. ChirazBouzuenda and couldn't be happier with my results and the treatment I received from both her and her staff. Dr. ChirazBouzuenda has done a very good job on making me feel confident about my body again and also helped me pick the perfect size of implant for my body type. She was never pushy and was always honest with her advice but at the same time, respected my decisions. I couldn't have picked a more kind, gentle and caring Doctor. My anaesthetist, nurse Dhallifah and the rest of the nurses on duty that day were more than helpful and very kind to me as well. They made sure that I was never left too long by myself and were there to help me with my requests within seconds of ringing for them. Staying at the hospital was very pleasant and I felt like I was taken care of almost as good as my mother would have :) Thank you ever so much again to the excellent job done by Dr. Bouzuenda and her staff and I would definitely recommend that anyone who is thinking about having any kind of surgery, to go and see Dr. Bouzuenda and her staff because you will be very happy you did!

Sincerely,
Michelle,
London,UK.
